

COAST 2 COAST

MOVEMENT

since 2014

Engaging young people and rural educators in small-scale fishing villages through awe-inspiring learning experiences for epic futures.

16 Countries

97 Communities

9845 Participants

3000+ Co-Productions

Over 12 years working with young people in inland and coastal fishing communities, responding to youth disenchantment in the face of climate change, industrialization, and inequalities through “edutainment” and place-responsive learning. We support young people in shaping sustainable futures that fulfill their aspirations while nurturing the well-being of their rural fishing villages.

Investigation

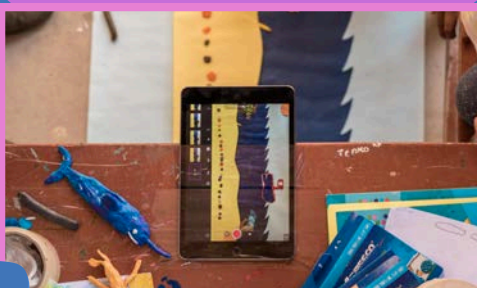

Curiosity | Youth action research exploring critical themes related to wellbeing.

Imagination

Creativity | Participatory audiovisual productions to amplify their findings.

Immersion

Care | Free, wild play in the water to strengthen self-to-planet relationships.
